

STEEL FIX C-STAHl

CF435 Push SL-connection set End plug 15

54161B00

Areas of application

Push SL-radiator connection set made of brass, non-porous metal-plated, suitable for processing with C-steel, stainless steel and copper pipes, heating/cooling connection pipe d12x1mm, incl. height and depth-adjustable corner-shut-off valve, the longitudinal frictional pipe connection of the shut-off valve is ensured with an M13 hex key at the front of the shut-off valve, the locking is performed with an Allen key 4mm, radiator connections 3/4" female, flat sealing

The end parts are needed for the last radiator of the SL set!

Specifications

Product information	
VPE1	2 SA1
VPE2	10 KT1
weight	0,03 KGM
text	Push SL-connection set
INTRNR	73071990
main material group	STEELFIX
material group	C-STAHl pushfittings
code	CF435

Art. No	label
54161B00	End plug 15
